11. What do you *wish to achieve* through your participation in this mentoring programme?:

To develop further research in the field of Radiography, to get more clinicians actively engaged in research and disseminating results locally, nationally and internationally. Ultimately to encourage more radiographers to undertake MSc and PhD study.

12. What are your *expectations* from your mentee in this programme?:

To have an area of interest that can be developed into a research proposal. To be willing to write up results for publication or presentation at conferences.

To be dedicated to the project and see it through to completion, perhaps building on it via MSc and PhD work.

13. Please state any *extracurricular activities/hobbies*. This may help for pairing you up with your mentee:

I am generally outdoorsy but even more so now as I have 2 Labradors who just love to play outside and on the beach! I love to travel and like to keep fit. I will try any sport (apart from throwing myself out a perfectly functioning plane. I did try but chickened out!). For downtime, I could spend hours in my vegetable plot...days even.
