

Hello, my name is Stephanie Mitchell, I am a Third Year BSc Diagnostic Radiography Student at Teesside University. As part of my course, I am undertaking a research project '*Radiographers' Experiences of Paediatrics in the Trauma Setting*'. I am looking for qualified radiographers to take part in a survey. The purpose of this study is to explore the experience of registered Radiographers working with paediatric patients within a trauma setting. This questionnaire has been given ethical approval via the Teesside University Ethical Approval Board, and it is completely optional, you do not have to participate in this study if you do not wish to do so. This research project is not associated with the Society of Radiographers or the College of Radiographers. Your time and participation is greatly appreciated. Many thanks!
